FAMILY-RUN, FUELLED BY PASSION: HOW LEFEVRE BECAME LEFEVRE

Lefevre started making goalie masks in the basement of their family home in 1967. They created their first pads in 1987. After more than 25 years of designing and manufacturing products for other companies, lefevre made history and launched its own line in 2020.

Since 1967, lefevre has been delivering products inspired by function and crafted by form for goalies performing at all levels of the game.

TRUE

MADE IN CANADA

Our high-performance products are made by hand in Canada, with our dedicated employees using the latest technology to optimize each item crafted in our workshop. Our goalie equipment, continues to challenge the status quo of gear design with our:

INNOVATIVE PRACTICES, CUSTOMIZED EXPERIENCE, AND DEDICATION TO THE GAME.

COMMITTED TO INNOVATION

Lefevre uses the most cutting-edge technology when designing and handcrafting their goalie equipment. Our innovative spirit ensures that our products are primed for efficiency and performance.

Embodying decades of design expertise for elite comfort and unparalleled performance, the handcrafted TRUE Hockey goalie collection has arrived.

MADE TRUE. PLAY TRUE.

INNOVATION

AN OBSESSION TO INNOVATE IS THE DRIVING FORCE BEHIND EVERY PRODUCT WE BRING TO THE MARKET.

L12.2

L87

L20.1

ENGINEERED MOBILITY

The L12.2 pads were designed to maximise the benefits of having a superior boot flex, resulting in enhanced mobility and control for all the different game situation. The FRS keeps the leg connected to the pad making it the key to making these pads very responsive without compromising rotation when dropping to the ice.

BOOT FLEX	HIGHEST
BREAK (CORE & OUTER ROLL)	SINGLE BREAK & NO BREAK
BOOT & LEG CHANNEL	YES
FRS	✓

RETRO LOOK

The L87 shares the same specs as the L12.2, but was designed for the goalie wanting the retro look.

BOOT FLEX	HIGHEST
BREAK (CORE & OUTER ROLL)	SINGLE BREAK & NO BREAK
BOOT & LEG CHANNEL	YES
FRS	✓

ENGINEERED FOR FREEDOM OF MOVEMENT

The L20.1 were designed with a flat leg and boot channel and using a shorter FRS at the calf giving you more freedom of movement at the ankle and skate. The FRS keeps the leg connected to the pad making it the key to making these pads very responsive without compromising rotation when dropping to the ice.

BOOT FLEX	MEDIUM
BREAK (CORE & OUTER ROLL)	SINGLE BREAK & NO BREAK
BOOT & LEG CHANNEL	NO
FRS	✓

Bare foot, measure the distance from the floor to the middle of the knee cap. Thigh rise sizing are based off the goalie's personal preference.

The above chart is a guide that will help position each goalie with the right equipment. However, there may be instances where the suggestions are not applicable to an individual player for a number of reasons. We strongly encourage all consumers to consult their local authorized TRUE retail staff who can help validate final gear choice for each individual player's needs.

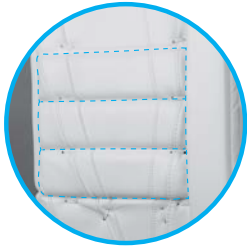

L12.2

ENGINEERED MOBILITY

These flexible boot pads were crafted for performance, agility and movement. They combine innovation, clean design and a vintage look with knee rolls.

REBOUND CONTROL

NEW FLATTER, KNEE ROLL DESIGN PROVIDES BETTER REBOUND CONTROL.

KEY FEATURES

1 FLEXIBLE BOOT CORE

To enhance mobility and control in all different game situations. Better power pushes and seal to the post in the reverse VH.

2 SEAL TO THE ICE

The top of the pad is made entirely of highdensity foam, which allows for a superior seal to the ice.

3 FRS (FAST ROTATION SYSTEM)

Allows the pad to be connected to the leg and making it very responsive without compromising rotation and stability when dropping to the ice.

4 KNEE ROLL

For the one that likes the more aesthetic look of knee rolls, flatter than previously, providing better rebound control.

TRUE

L87

RETRO LOOK

The L87 shares the same specs as the L12.2, but was designed for the goalie wanting a retro look. These flexible boot pads were crafted for performance, agility and movement. They combine innovation, clean design and a vintage look with knee rolls.

INCREASED CONTROL

NEW FLATTER, KNEE ROLL DESIGN PROVIDES BETTER REBOUND CONTROL.

KEY FEATURES

1 FLEXIBLE BOOT CORE

To enhance mobility and control in all different game situations. Better power pushes and seal to the post in the reverse VH.

2 SEAL TO THE ICE

The top of the pad is made entirely of highdensity foam, which allows for a superior seal to the ice.

3 FRS (FAST ROTATION SYSTEM)

Allows the pad to be connected to the leg and making it very responsive without compromising rotation and stability when dropping to the ice.

4 KNEE ROLL

For the one that likes the more aesthetic look of knee rolls, flatter than previously, providing better rebound control.

30GRAMS LIGHTER
THAN THE 2020 AX9 GOALIE STICK

CORE TECHNOLOGIES

INCREASED HANDLE DURABILITY

- Different to our ASERIES '20 collection, the CATALYST '21 family features an improved rounded corner shaft, and when combined with our new steeper shoulder angle from paddle to handle, offers ultimate feel and added grip while stickhandling.

OPTIMIZED IMPACT STRENGTH

- All-new PLD, Precision Laminate Design, optimizes the angles of carbon fiber layers throughout the shaft, increasing impact strength and offering optimal stiffness while reducing weight.

IMPROVED PADDLE WEIGHT

- By incorporating lightweight braided aramid sleeves throughout the paddle, blade, and heel, we've designed an improved braided rib system, BAT, which provides a damped feel, and optimized balance and durability throughout play.

REDESIGNED FLEX ZONE

- The redesigned, higher flex zone within the CATALYST '21 paddle is optimized for easier, faster loading times and more powerful passes while clearing shots.

throughout for a thinner, lightweight paddle with increased durability.

CORE TECHNOLOGIES

REDESIGNED FLEX ZONE

- The redesigned flex zone within the ASERIES '20 paddle is optimized for enhanced power and balance, providing faster load times and quicker passes.

IMPROVED WEIGHT & BALANCE

- By redistributing materials within the shaft, paddle, and blade, the balance point has shifted 3 inches closer to the goaltender's hand position, decreasing weight by 5% while improving overall shaft durability.

ENHANCED PADDLE DURABILITY

- Designed with BRT+ technology distributed throughout the paddle, blade, and heel, the all-new AX9 provides improved balance while improving durability.
